CHALLENGES

Challenges Faced by Companies in the Transformation Journey

• Where do I begin?
• What should I focus on that will create business value and impact?
• How do I go about doing it?
DIGITAL TRANSFORMATION

Digital transformation is the adoption of ‘digital’ in

1. the mindset and vision of leadership

2. the internal organisation – people and processes

3. customer and supplier relations and experiences

“Digital transformation differs from company to company — what one company is after might not fit the needs of another.”
IMPORTANCE OF DIGITAL TRANSFORMATION

In Singapore

Fortitude Budget: More than S$500m allocated to support digital transformation of businesses amid COVID-19 outbreak

SINGAPORE: More than S$500m of the Fortitude Budget will be allocated to support the digital transformation of businesses, including support for e-payments, adopting digital solutions and deepening digital capabilities, announced Deputy Prime Minister Heng Swee Keat on Tuesday (May 19).

"Those who are willing to transform will not be left behind," said Mr Heng, speaking in Parliament on Tuesday.

Gartner Survey:

56% of CEOs said that digital improvements have already led to increases in profits

SAP Center for Business Insights and Oxford Economics:

80% of organizations that have completed digital transformation report increased profits

85% say they have increased their market share

Leaders expect average 23% higher revenue growth than competitors

Combat Rising Labour Costs

Singapore Government Is Advocating Digital

Remain Competitive

Business Continuity Planning
WHAT WE DO

   Guided, Structured and Holistic help for companies

2. Designed with 11 Companies

   Built on tested fundamentals that People & Processes are at the Core of a successful Enterprise Transformation
COMPANY & WORKFORCE TRANSFORMATION (CWT)

Company Transformation
- Business Strategy Innovation
- Process Redesign
- Technology

Workforce Transformation
- HR Process Redesign
- Job Redesign
- Training Needs Analysis
- Workplace Training and Assessment

Project-Based Training
- Powerful 2-in-1. Transformation Solution + Training

Bespoke Solution through Consultancy
Questions posed by consultants during the Clinic Session:

1. What are key areas that you would like to change/improve in your business?
   In your day-to-day operations, what are some of the challenges you face?
   What do you think are the root causes of these challenges?
   Are your leaders synced-up in recognising that these are areas of importance for change/improvement?

2. Does your company have any business growth plans or future directions that you would like to share?
   Tell me 3 things that could be holding you back in growing your business.
   Does your company have a roadmap for transformation to help your leaders and employees to have a common vision and plan?

3. Are there specific processes that you would like to see improvements?
   Are there any obstacles that you face related to employee performance issues?
   Tell me about the technology/training/process implementation programs implemented in your company. What are the challenges/gains about it?

4. What are the top specific areas does your enterprise want to address?
   What is the scope of work?

5. Which jobs will be affected by this project?
   What are the plans for these impacted jobs?
   Which skill gaps will need to be addressed?
# GUIDED, STRUCTURED, HOLISTIC APPROACH IN Company and Workforce Transformation

Workforce is developed in tandem with Transformation
CHRIS HO

Profile Summary
Chris Ho is architectural trained in Melbourne University. Upon his graduation in 2005, he worked in consultancy for seven years before becoming a teacher in Singapore Polytechnic in 2012. His last job was a Project Manager and was administering mostly residential developments.

He has been teaching for almost 10 years and is now teaching in Year Three in the Diploma of Architecture. He teaches a wide range of modules, from design, theories of architecture and BIM software. Chris was award as BEST Tutor and Excellence in Teaching in 2014 and 2016. In between his teaching, Chris went on to further his studies in Specialist Diploma in BIM at BCA Academy and became a qualified BIM Manager in 2015.

Currently he is the Course Coordinator for the various short courses and Specialist Diploma in BIM Management in Singapore Polytechnic. He is also a Consultant with School of Architecture, and Built Environment [ABE], Digital Building Innovation Centre [DBIC], where he practices as a BIM Practitioner, offering BIM Consultancy Services to BE Industry. Chris is also currently the organiser for World Skills Singapore [WSS] 2021[BIM Skills] and Expert in Technical Working Group for World Skill Shanghai [WSI] 2022.

Apart from these, Chris is the Assistant Secretary of building Smart Singapore [bSS], where he is involved as an Assessment Panel, for Digital Delivery Management [DDM] Track Accreditation Scheme. He recently has just joined building Smart International as a Jury in 2021.

CHAN LOY SOON

Profile Summary
Chan Loy Soon is an experience professional in the field of Factory Automation and project management. He has worked for various local MNCs in supporting the backend semicon, hard disk industry and contract manufacturing. He has proven record in the design and development of automation projects and expanding portfolio in the area of work force transformation.

Through out the years, he has co-developed many projects, achieving higher speed, higher efficiency, higher capacity and higher quality output, with lower footprint and lower cost. Most of the customers are the major chipmakers and leading hard disk manufacturers.

DR KATHIRESAN

Profile Summary
Dr Kathiresan has more than 15 years of experience working in the education, healthcare and government sectors. His initial focus in was on digital signal processing and he developed a tool used at ENT clinics. Subsequently, his centre of attention was on data analytics, leading projects that were commented favourably by the Permanent Secretary at the Singapore Ministry of Manpower.

He undertook longitudinal studies, developed predictive models for construction and government sectors, survey studies to understand landscape transformation, food & beverage, healthcare sectors and cross agency pilot studies. Government departments included the Ministry of Home Affairs, Ministry of Manpower, Land Transport and Traffic Police in Singapore. He has overseen several projects with external consultants such as Blackbox (Healthcare project) and Deloitte (Construction project).

In addition, he has authored and co-authored several peer reviewed journals and conference proceedings. Currently, he is lecturing on Data Analytics, Business Statistics, and IT & Data Analysis for Business. His focus areas are Business Intelligence and Data Analytics, and he is the Course Chair for data analytics at Singapore Polytechnic.
MAYURESH GODSE

Profile Summary
Mayuresh Godse is an Expert Singapore Certified Management Consultant (ESCMC), who helps businesses reach the next stage of growth. Working with a holistic approach, Mayuresh helps growth-driven companies in many facets of their business transformation such as business strategy, process improvement, technology adoption, and digital marketing.

Capitalising on his cross-industry, multi-functional experience aggregating over 30 years, Mayuresh serviced a varied clientele, including SMEs, blue-chip companies and MNCs in Singapore, India and the USA. He specialises in working with organisations’ top leadership in diverse segments such as IT, Manufacturing, Automobile, Education, Real Estate, Finance and Government.

PULI S. SARAVANAN

Profile Summary
Puli is an experienced business leader with over 29 years of rich experience. He has worked for KBR, Shell and ExxonMobil – Refining & Petrochemicals business across APAC, ME and Global portfolio. He has a proven track record in Business Development, Project Management, Process Improvement, Operations Excellence and Digital Transformation.

He has managed multimillion dollar projects in the areas of EPC and Consulting, Managed Projects and Turnarounds. As Contracts/Procurement Advisor he has saved 20% through low-cost sourcing for a $1.2bn project. During his tenure, he has been a recipient of many awards for his outstanding performance.

COLIN SOH

Profile Summary
Colin’s forte is in running Operations and Services, both in technical and customer, and has successfully run modest operations covering a few million dollars to over a hundred million USD annually.

He has broad end-to-end (Sales-Operations-Services) career history spanning over 33 years. His past experiences include quality assurance engineering, field engineering in manufacturing, starting and running a high tech start-up division in Graphic Arts and leading a sales team. Additionally, he has managed international support teams operating across Asia Pacific and India, including China and Japan.

GAN HUI GUAN

Profile Summary
Across his 30+ years of career, Hui Guan is vastly experienced in both manufacturing and retail industry. Serving as the Director for Asia Pacific for over 14 years, he established infrastructure to provide world class aftersales warranty support to build company brand name, customers’ (enterprise clients) confidence and satisfaction and an edge over the competition to help grow business and market share.

He has a strong track record of transforming inefficient operations into world class manufacturing facilities with cultural change. Hui Guan also empowers and engages employees to develop and implement innovative manufacturing processes, to improve Quality, Productivity and hence Profitability.
Profile Summary
Ms. Ng June Li holds a Bachelor of Arts in Human Resource Management with Financial Management from Edinburgh Napier University. She is certified in Advanced Certificate in Learning and Performance (ACLP), Human Capital Diagnostic Tool (HCDT) and a certified facilitator in Insights Discovery as well as a Lead Associate Consultant under Skillsfuture for Enterprise Programme (SFE).

She started her career with retail entrepreneurship during her first year in National University of Singapore and subsequently pursued Learning and Talent Development with Starwood APAC and CapitaLand Group.
